## Data set Documentation

### Abstract

The dataset is related to the Horizon 2020 Una.Resin project Work Package 1 Tasks 1.2 and 1.3. It describes the co-creation workshop methods, agendas and outcomes that fed into the preparation of the Una Europa Research & Innovation (R&I) strategy, Task 1.10. R&I roadmap (annex 2 of the WP1 D1.2). and to the Task 1.9. resulting the Una Europa R&I Funding Pathway (annex 1 of the WP1 D1.2). The outcomes also fed into the pilot tasks 1.11. (Horizon Europe Pillar II matchmaking) and 1.12. (Concept for a Una Europa collaboration platform) These workshops were carried out between September 2021 and April 2022 by the University of Helsinki and Freie Universität Berlin. They were targeted to professionals and academics at each of the eight Una Europa universities participating in the project (University of Edinburgh; University of Helsinki; University of Bologna; Complutense University of Madrid; Freie University Berlin; Katholieke Universiteit Leuven; Jagiellonian University; Université Paris 1 Panthéon-Sorbonne) aiming to identify the complementary strengths, opportunities, enablers, and barriers of the research collaboration in this alliance.

### Content of the files

- **Una.Resin_WP1_README_co-creation workshops_20240131.pdf** contains the description of the dataset and the included documents.

- **Una.Resin_WP1_T1.9._T1.11._T1.12_Una Europa OH SSC workshop_report_20240129.pdf** contains description and outcomes of the workshop with the Una Europa One Health focus area self-steering committee. The workshop took place 1st-2nd February 2022.

- **Una.Resin_WP1_T1.4._Una Europa RI strategy workshop_report_20240129.pdf** contains description and outcomes of the on-line Una Europa R&I strategy workshop 22nd September 2022 aiming at identifying key grand challenges and obstacles and enablers for the research-collaboration. The results fed into the Una Europa R&I strategy and the Una Europa R&I roadmap.

- **Una.Resin_WP1_T1.3_leveraging_collaborations_with_non-academic_partners_2024310.pdf**
  contains description and outcomes of the workshop with the Cluster for Public, Private and Third Sector Collaboration (PPTSC) in Berlin April 4-6 2022. As an outcome of the workshop, the document outlines needs and possible further steps to effectively combine the eco-systems of external partners.

*Methodologies*

In order to achieve the objectives of each work package, the Una.Resin project followed a common methodology across work packages:

- Development of shared strategies, agendas and policies following definition of scope, mapping of policies and assets, stakeholder consultation and identification of barriers and enablers of R&I cooperation
- Development of an action plan to implement shared priorities
- Initial implementation via pilot actions
- Evaluation of pilot actions

This dataset relates to phase 1, i.e., mapping and understanding the relevant policies of the different institutions, providing WPs with essential information to develop shared strategies. The main methods used in phase 1 were: (1) questionnaires, targeted at policy makers, research administration professionals and relevant academics; (2) co-creation workshops for the academic community, targeted mainly at the research professionals and the academic leaders and other researchers in the Una Europa focus areas.

Concerning specifically the work done in WP1, the main major tasks of the benchmarking phase were: R&I Strategy Benchmarking including the benchmarking questionnaire and benchmarking of the publicly available strategies of the Una Europa universities; on-line R&I Strategy Workshop involving academics from all partner universities; One Health SSC Workshop involving academics from the Una Europa One Health focus area; Online Consultation of the Una Europa Community done using Viima platform and done in collaboration with the Una Europa 2030 Strategy process and answers of the eight strategic questions for targeted to the Una Europa partners institutions done also as part of the Una Europa 2030 strategy.

All these activities have been described in the Una.Resin WP1 Deliverable 1.1. "Benchmarking R&I Strategies and Priorities for a Joint Una Europa Strategy".

In addition, the WP1 was working closely with the clusters of research professionals, especially the Research coordination cluster chaired by UH and the Cluster for Public, Private and Third Sector Collaboration (PPTSC) chaired by FUB to understand the relevant structures and processes to build sustainable support for Una Europa research-collaboration.
